

Making a cup of coffee

Equipment

Kettle

Mug

Spoon

Ingredients

Coffee

Milk

Sugar

1

Fill the kettle with water

2

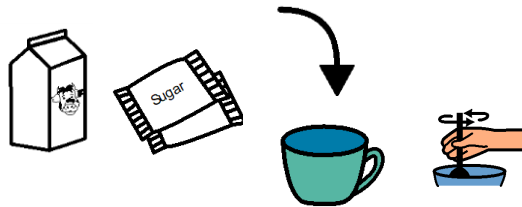

Turn kettle on to boil the water

3

Put a spoonful of coffee into the mug

4

If you have milk and sugar, add and stir

5

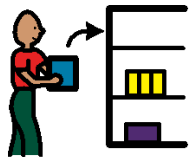

When the kettle has boiled, pour the boiling water into the cup carefully.

6

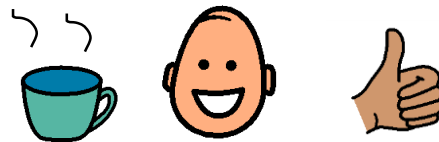

Give your drink a stir to make sure all the coffee granules are mixed in

7

Put all of the equipment and ingredients away

8

Enjoy your lovely coffee!
