

Using the washing machine

	Full adult support needed	Some adult support needed	Step completed independently
Collect equipment needed			
1. Sort the laundry into piles (colours, whites and darks)			
2. Pick up the pile you are going to wash			
3. Check the temperature you need the machine on			
4. Open the washing machine door			
5. Put the dirty laundry in the washing machine			
6. Pour the laundry cleaner into the cap. Place the cap onto the laundry at the back of the washing machine			
7. Close the washing machine door			
8. Add the fabric conditioner into the correct compartment of the drawer			
9. Put the washing machine on the correct program and press start			

What went well?

Next time, it would be even better if:
