

Area

LO: To be able to find the area of rectangles.

LO: To be able to find the area of a rectangle.

- 1) How to use the Reaction, Annotation and Chat functions.
- 2) Test Reaction, Annotation and Chat function with easy questions.
- 3) mymaths
What is area?
How do you find the area of a rectangle the easy way?
- 3) Practice questions.
- 4) How to find the area of a composite shape.
- 5) Practice question.
- 6) Follow up work.

Zoom Lessons

- 1) Pupils will need a pen/pencil, paper and a calculator for the lesson.
- 2) Pupils will be muted on entry to the Zoom meeting.
- 3) Pupils will be muted whilst Mrs Gould is talking so that everybody can hear clearly.
- 4) If pupils would like to ask or answer a question they can put their hand up, use the Chat button at the bottom of the screen or use the clapping reaction icon.
- 5) Mrs Gould will set follow up work for pupils to complete after the lesson.

How to use the Reaction function

1) At the bottom of the screen click on Reactions.

2) Chose a Clap if you want to speak.

3) Chose a Thumbs up if you want to say that you understand.

4) Try choosing a Reaction now.

How to use the Annotation function

You can use the Annotation function when your teacher would like you to draw on the screen.

1) At the top of the page click on View Options.

2) Chose Annotate.

3) Try Annotating the screen now.

4) Tick or write your name in the Zone that you are in.

Blue Zone

Going slow

E.g. sad, sick, tired,
bored

Green Zone

Good to go

E.g. happy, calm,
focused, ok

Yellow Zone

Caution

Starting to lose control

E.g. worried, excited,
annoyed

Red Zone

Stop!

Out of control

E.g. angry, terrified,
elated

How to use the Chat function

If you would like to ask or answer a question, you can use the Chat function.

1) At the bottom of the page click on Chat.

2) Chose who you would like to see your question or answer.

3) Try sending a message to me now.

LO: To be able to find the area of rectangles.

Use the *Chat* or *Annotation* function to answer the questions.

You can chose to just reply to *Mrs Gould*, *Mrs Rushworth* or *everybody*.

<p>Rihanna</p> <p>$5 \times 4 =$</p>	<p>Jamie</p> <p>$5 \times 6 =$</p>
<p>Ollie</p> <p>$5 \times 3 =$</p>	<p>Harrison</p> <p>$5 \times 8 =$</p>

Mymaths - Introducing Area

LO: To be able to find the area of rectangles.

Use the Chat or Annotation function to answer the questions.

You can chose to just reply to Mrs Gould, Mrs Rushworth or everybody.

<p>Rihanna</p>  <input type="text"/> cm ²	<p>Jamie</p>  <input type="text"/> cm ²
<p>Ollie</p>  <input type="text"/> cm ²	<p>Harrison</p>  <input type="text"/> cm ²

LO: To be able to find the area of rectangles.

To find the area of a rectangle work out length x width

Find the area of the rectangle

$$\underline{\text{Length}} = 7\text{cm}$$

$$\underline{\text{Width}} = 2\text{cm}$$

$$\underline{\text{Area}} = 7 \times 2 = 14 \text{ cm}^2$$

LO: To be able to find the area of rectangles.

Use the Chat or Annotation function to answer the questions.

You can chose to just reply to Mrs Gould, Mrs Rushworth or everybody.

Area = length x width

width

length

Rihanna

Area = cm²

Jamie

Area = cm²

Ollie

Area = cm²

Harrison

Area = cm²

LO: To be able to find the area of rectangles.

Write your answers to these questions on your paper. You can use a calculator if you would like to.

Calculate the area of the rectangles. All lengths are in centimetres.

1)

Area = cm²

2)

Area = cm²

3)

Area = cm²

4)

Area = cm²

LO: To be able to find the area of rectangles.

Write your answers to these questions on your paper. You can use a calculator if you would like to.

Calculate the area of the rectangles. All lengths are in centimetres.

1)

Area = cm²

2)

Area = cm²

3)

Area = cm²

4)

Area = cm²

Calculate the area of the squares. All lengths are in centimetres.

1)

Area = cm²

2)

Area = cm²

3)

Area = cm²

4)

Area = cm²
