

Introducing Level 2

Hi Year 10 (DT pupils)

We are now going to start looking into the work for next year.

Having completed the Level 1 work we are now moving onto Level 2

Within the Level 2 there are 4 Units that need to be covered which are:

Unit 1: Use materials, tools and equipment to develop craft techniques

Unit 2: Investigate creative enterprise and employment opportunities

Unit 3: Develop craft ideas

Unit 4: Create, present and evaluate final construction item.

Looking at the above units, Units 1 and 4 will need to be completed in school and as we are not in school at the moment, we can make a start on the other units.

I would like us to start with Unit 2: Investigate create enterprise and employment opportunities.

In the next attachment we will look at what this involves.
