4

9

5

10

Task 2. Choose eight words from your list and explain the words used when working with a computer.

	ICT Word	Meaning of words used when working with a computer
<i>Example</i>	Keyboard	<i>A keyboard is used for entering data into the computer. It can type words, numbers and symbols.</i>
1		
2		
3		
4		
5		
6		
7		
8		

Task 3 Create a PowerPoint for pupils at Stansted Primary School to display your chosen ICT keywords. Remember to include the meaning of the word and a picture to help the children learn about computers.

Information Computer Technology - ICT

- LO: Create a PowerPoint presentation for pupils at Stansted Primary School to help them learn about ICT keywords.
- Be sure to include the meaning of the word and an image of the word (picture) to help the children learn computer language.

ICT Word List

- Copy your completed word list here.

Now use the words in your list to create a ICT Keyword presentation

Word	Meaning of words used when working with a computer
Example Keyboard	A keyboard is used for entering data into the computer. It can type words, numbers and symbols.
1	
2	
3	
4	
5	
6	
7	
8	

Example - one ICT word with its meaning and picture per slide

ICT Keyword - KEYBOARD

Add the meaning of your word here

Keyboard -
A keyboard is used for entering data into the computer. It can type words, numbers and symbols.

Add an image of your ICT Keyword here

Save your work. Print a copy of the completed worksheet and the PowerPoint presentation.
